

FLEXO-GUIDE®

Flexo-Guide® tracheal tube bougies

Flexo-Guide® bougies are designed to aid the placement of endotracheal and tracheostomy tubes during difficult intubations. They are supplied with a range of features that allow for easier insertion, reducing trauma and improving patient comfort.

- Internal memory allowing for **improved positioning during insertion**
- **High visibility colour** to aid positioning in poor light
- Low point of pressure tip **reducing the risk of inadvertent trauma during insertion**
- **Adult and Paediatric versions available** for use in a wide range of clinical applications
- Available in 5ch, 10ch and 15ch diameter and in 600mm or 800mm lengths
- Both **angled (coudé) tip and straight versions** available
- Low friction outer surface **enhances tracheal tube glide**
- **Single Use** 
- **Latex Free** 
- Supplied in **boxes of 10**
